

The Dyna-Miser VS

(variable speed) can save up to 90% of energy costs and has an endless array of possible applications.

The Dyna-Miser VS

is the answer for single pump pool and spa combinations. It can be programmed to meet your pool and/or spa's daily filtration requirements by dialing in the exact gallons per minute, saving hundreds of dollars per year and doing so very quietly. The Dyna-Miser VS can pump up to 180 gallons per minute and can be installed with automation systems. With a flip of a switch or a push of a button the Dyna-Miser VS can operate up to 12 spa jets.

Optional Accessories

- **Spa-Side Control** – Just by turning a knob you can control the pressure of your spa's jets, maximizing the spa's therapeutic benefits – and your comfort.
- **Dancing Water Module** – Creates a fountain of dancing water. Just think – a “mini” version of that world-famous Las Vegas fountain in your own back yard.
- **Solar Switch** – When adding solar heat to your pool you can save hundreds of dollars per year in energy costs by using this switch.

The Dyna-Miser

can save up to 70% of energy costs and is great for waterfalls, streams, koi ponds and other water features.

The Dyna-Miser can pump 75 gallons per minute, consuming approximately 1.9 amps (440 watts) of electricity. It is extremely quiet – so quiet you won't realize it's on!

IKERIC® SYSTEMS FEATURE THE DYNA-MISER™ VS PUMPS

SAVE HUNDREDS OF DOLLARS EACH YEAR!

IKERIC® SYSTEMS is a family of products specially designed to optimize the performance of your aquatic equipment. Each year, you'll **save hundreds of dollars** on your energy bill and even reduce your maintenance costs. An authorized IKERIC dealer will provide you with a comprehensive analysis of your requirements and make a recommendation for a custom-configured installation.

The heart of the IKERIC System is the Dyna-Miser™ pump series. Working in concert with your filter and other system components, the Dyna-Miser pumps run smoothly and makes more efficient use of electricity. In addition to big savings on energy costs, you can count on the IKERIC System to provide:

- Outstanding water clarity
- Superior chlorination
- Extremely quiet operation
- Years of dependable service

Call today and find out which IKERIC System is right for you.

1 A CLEAR VIEW

“See-thru” trap lid lets you check for debris without lifting a finger. The easy twist-off lid incorporates a permanently lubricated O-ring for an extra-tight seal.

2 MORE WATER, LESS COST

Superior hydraulic design moves larger volumes of water, which translates into lower operating costs.

3 WORKHORSE MOTOR

Performs more work than pumps of equal or greater horsepower.

4 LESS CLEANING

6" large-capacity trap collects more debris without clogging or starving your pump.

5 WINTERIZING IS EASY

Tool-free drain plug provides quick and easy draining of trap.

6 ROCK SOLID

Specially-designed base dampens sound and vibration.

7 BUILT FOR THE LONG RUN

Pump housing is constructed of glass-reinforced composite resin, which resists corrosion and withstands years of ultraviolet rays.
